of Transportation  
**Federal Aviation  
Administration**

## Information for Applicant

### **LIGHT-SPORT AIRCRAFT STATEMENT OF COMPLIANCE**

#### **Paperwork Reduction Act Statement:**

A federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a currently valid OMB Control Number. The OMB Control Number for this information collection is 2120-0690. Public reporting for this collection of information is estimated to be approximately 20 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, completing and reviewing the collection of information.

All responses to this collection of information are required to obtain or retain a benefit by 14 CFR Part 21. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to the FAA at: 800 Independence Ave. SW, Washington, DC 20591, Attn: Information Collection Clearance Officer, ASP-110.

27. Flight Training Supplement				28. Aircraft Flight Training Supplement			
29. Pilot's Operating Handbook/Aircraft Operating Instructions				30. Pilot's Operating Handbook/Aircraft Operating Instructions			
<b>Comments</b> (additional comments may be stated on the reverse side of this form or an attached document)							
<p>I hereby certify that aircraft/kit serial number _____ as equipped, complies with the Title 14 of the Code of Federal Regulations part 1, Definitions and Abbreviations, § 1.1 definition for light-sport aircraft, and the applicable portions of the consensus standards identified on this statement of compliance for U.S. airworthiness certification. The manufacturer will monitor and correct safety-of-flight issues through the issuance of safety directives and the manufacturer's continued airworthiness system to support the aircraft throughout its life. This aircraft/kit (1) was manufactured following the consensus standards procedures and manufacturer's quality assurance system identified on this statement, (2) conforms to the manufacturer's design data, (3) was ground and flight tested successfully [N/A for kit], and (4) is in a condition for safe operation [N/A for kit]. Additionally, at the request of the FAA the manufacturer will provide unrestricted access to its facilities, and will make available to any interested person the aircraft's operating instructions, maintenance and inspection procedures, and flight training supplement.</p> <p>I hereby certify that all statements and answers provided by me on this form are complete and true to the best of my knowledge, and I agree that they are to be considered part of the basis for issuance of any FAA certificate.</p>
