## 4 Introduction

Alta Avionics, LLC is an avionics repair facility providing maintenance, repair, and installation of avionics systems for various types of aircraft.

This Forms Manual has been prepared in accordance with the current Code of Federal Regulations (CFR's), and the policies of Alta Avionics, LLC. All records and forms will be written and completed in English.

This manual contains the forms used by Alta Avionics, LLC, examples, and their method of completion, to comply with 14 CFR Part 145.

Each supervisor, inspector, and all personnel working for Alta Avionics, LLC will have access to this manual. All personnel are required to thoroughly understand its contents.

This Forms Manual is accepted by the FAA, and will be maintained in a current status at all times.

## 5 Manual Control

This manual will be maintained by the FAA Coordinator and will provide a hard copy OR electronic Portable Document Format (PDF) for manual access for all personnel. If an electronic manual is requested a PDF version of this manual will be provided by link for electronic manual access for any personnel.

Any digital version of this manual will be in PDF and archived in an organized manner easily retrievable for historical record and shall be done so in such a manner so as not to interfere with the most current version of this manual. In the event of hardware failure, a hardcopy, or digital file (remote or local) will be used to restore data.

The General Manager will be notified by a department supervisor in the event this manual is not current, and valid for that department's use, and will identify needed changes using form A-MCR (Manual Change Request). A sample of this form is found in the Forms Manual. The General Manager will have the revisions found necessary, produced in a final form. The proposed revisions will be submitted to the FAA/CHDO (Federal Aviation Administration/Certificate Holding District Office) for acceptance in electronic form (pdf).

The FAA Coordinator will revise manuals as required, and explain the revisions to all employees. An entry into each employee's training record will be added after each employee has been trained to verify and acknowledge the understating of each revision. Upon approval by an authorized Repair Station representative, the repair station will commence operating within the guidelines of the new revision.

The "List of Effective Pages" will reflect the Approval/Acceptance of the current revision. A file will be maintained, showing on a continuous basis, the disposition of each manual change. The FAA/CHDO will be notified each time a revision to this manual is needed. Revised areas within the document will be identified by a vertical bar in the margin.

Revisions found "not acceptable" to the FAA/CHDO, which do not conform to applicable regulations, will be addressed by this repair station as a top priority. The identified procedure or action will cease, and acceptable changes implemented immediately. The maintenance/administrative actions that were performed under revisions found "not acceptable" by the FAA/CHDO will be addressed in the following order:

1. Safety of Flight: Aircraft operator to be notified immediately, and advised that aircraft is to remain on the ground until this repair station can correct the problem, or coordinate with another certified repair station to correct the problem.
2. Procedure/Record Keeping: Aircraft operator to be notified immediately, and advised of the problem. The operator will have the option to operate the aircraft until the problem can be corrected.
3. Problems that do not affect aircraft and/or appliances will be dealt with internally and immediately to correct them.

## **5.1 Additional Fixed Locations**

All additional fixed locations under Alta Avionics, LLC will be supplied with a direct link to this manual on every computer terminal. Each employee will be trained on the procedure to access all the manuals during their initial training. A stored copy will be supplied to each facility in case of computer failure.

## 6 General Description

This section provides a summary and general description of each form or tag used by Alta Avionics, LLC. For further detail on any given form, refer to the matching, corresponding subsection in Chapter 6 “Forms”. For example, for more information on Form A-ATI (Altimeter Test/Inspection) refer to section 6.2 in this General Description and/or refer to section 7.2 in Chapter 7 Forms.

Alta Avionics uses a standard nomenclature to provide succinct and easily identifiable names to the forms, tags, log entries, stickers etc that are used for normal day to day work. This nomenclature is used to help avoid confusion and provide simple correlation between the form and its function. e.g. A-WO (Work Order)

This nomenclature is described below:

1. Characters 1-2 are used to describe the ‘type’ of form being used.
  - a. The first character is always an ‘A’ to describe ‘Alta Avionics, LLC’ and that this form is defined and used exclusively by Alta Avionics, LLC.
  - b. The 2<sup>nd</sup> character (or lack of a 2<sup>nd</sup> character) describes the specific ‘type’ of form.
    - i. No character after the ‘A’ indicates that this is a standard form  
e.g. A-WO (Work Order)
    - ii. ‘A’  
An ‘A’ after the initial ‘A’ indicates that this is an Audit form, used in Audit activities at Alta Avionics, LLC.  
e.g. AA-IA (Internal Audit)
    - iii. ‘L’  
An ‘L’ after the initial ‘A’ indicates that this is a Log Entry type of form used when creating log entries for work completed at Alta Avionics, LLC.
    - iv. ‘T’  
A ‘T’ after the initial ‘A’ indicates that this is a Tag, Sticker or Label type of form used at Alta Avionics, LLC.
2. Character 3 (or 2<sup>nd</sup> character in the case of a standard form) is a ‘-’ (hyphen) to separate the type of form from the specific name of the form.
3. Characters after the ‘-’ (hyphen) is a descriptive acronym for the form name and can be up to 6 characters in length.  
e.g. AA-IA
  - a. AA – indicates that this is an Alta Avionics, LLC form of type Audit.
  - b. IA – indicates that this is an Internal Audit (IA) form

NOTE: Forms not defined or provided by Alta Avionics, LLC will use the name of the entity that created/defined the form and then the name of the form as defined by that entity.

e.g. Form 8130-3 as provided/defined by the Federal Aviation Administration (FAA) is named as 'FAA-8130-3'.

### **6.1 Form A-ATC-TMSI (ATC Transponder and Mode S Inspection)**

This form is used when testing and inspecting the operation of a Transponder appliance. The completed form will be added to the workorder and any appropriate records.

### **6.2 Form A-ATI (Altimeter Test/Inspection)**

This form is used when Testing/Inspecting the condition and operation of an Altimeter as per 14 CFR Part 43, Appendix E. The completed form will be added to the workorder and any appropriate records.

### **6.3 Form A-CC (Certificate of Calibration)**

This form is used to document the calibration of instruments/appliances that are calibrated under standards that are based on NIST standards or derived. The completed form will be added to the workorder and any appropriate records.

### **6.4 Form A-CLSE (Capabilities List Self-Evaluation)**

This form will be used to evaluate the proposed repair station that is requesting an added capability to the Capability Manual (CM).

### **6.5 Form A-ETR (Employee Training Record)**

This form is used to document ongoing and recurrent training of all employees of Alta Avionics LLC. Completed forms will be scanned into the appropriate employee training records.

### **6.6 Form A-MCR (Manual Change Request)**

This form is used to request a change any of Alta Avionics, LLC manuals. This form will be completed and given to the General Manager. The manuals may be revised if deemed necessary.

### **6.7 Form A-RTL (Required Training Log)**

This form is used to document required training for employees. This form will be completed and maintained by the employee's supervisor, showing the type, date, and who trained the employee. This form will be added to the employee's Training Records.

### **6.8 Form A-TECIF (Test Equipment Calibration and Inspection Form)**

This form is used for inhouse equipment calibration. This form will be completed by the technician performing the calibration of the equipment, and will be signed by an inspector. The completed form will be added to any appropriate records.

## **6.9 Form A-WO (Work Order)**

This repair station will utilize a company work order, identified by a number, containing the customer's name, date, and appropriate identification required to identify any part, unit, or aircraft. This work order will list all work that is to be accomplished, in sufficient detail, that it will be readily understandable to the workman. The work order will contain all pertinent documentation pertaining to the repair items listed on the front of the work order. The completed work order will be stored in Alta Avionics, LLC computer system.

## **6.10 Form A-WOC (Work Order Continuation)**

This repair station will utilize a Work Order Continuation page, as necessary, to document all work and pertinent documentation pertaining to the repair items listed. The completed work order and work order continuation pages will be stored in Alta Avionics, LLC computer system.

## **6.11 Form AA-AFCA (Audit Findings/Corrective Action)**

This form is used to document findings and corrective actions for audits. Upon completion, forms are to be electronically filed with appropriate audit in Alta Avionics, LLC computer system.

## **6.12 Form AA-IA (Internal Audit)**

This form is used for the internal audit function of the different departments and/or areas within the company. Upon proper completion, forms are to be electronically stored in Alta Avionics, LLC computer system.

## **6.13 Form AL-ACMR (Log Entry – Air Carrier Maintenance Release)**

This for is used for Air Carrier logbook entries upon the aircraft being released back into service. The technician will document the applicable information when completing tests/inspections, and it will be signed by an authorized inspector. This sticker is to be placed in aircraft logbook, and electronically stored.

## **6.14 Log AL-ATI (Log Entry – Altimeter Test and Inspection)**

This sticker is used as a Log Entry for Altimeter tests and inspections. The technician will document the applicable information when completing tests/inspections per 14 CFR Parts 91.411, 91.413, 91.217, and it will be signed by an authorized inspector. This sticker is to be placed in aircraft logbook, and electronically stored.

## **6.15 Log AL-GAMR (Log Entry – General Aviation Maintenance Release)**

This for is used for General Aviation logbook entries upon the aircraft being released back into service. The technician will document the applicable information when completing tests/inspections, and it will be signed by an authorized inspector. This sticker is to be placed in aircraft logbook, and electronically stored.

**6.16 Label AT-AT (Article Tag)**

This sticker/tag/label is used to identify an article with a WO and indicate that this item is or may be under warranty.

**6.17 Label AT-CS (Calibration Sticker)**

This sticker is used for “in-house” equipment calibration. When the calibration is completed, this sticker will be completed by the technician, and placed on the equipment.

**6.18 Tag AT-LST (Locator/Status Tag)**

This tag may be used to identify and/or locate parts or appliances. The Parts Inspector can attach this tag to parts or appliances to aid the technician in locating the item. When the tag is removed, it is destroyed.

**6.19 Tag AT-Q (Quarantine)**

This tag is placed on items to be scrapped. The technician and/or inspector will place a completed tag on parts/appliances to be scrapped. When the parts/appliances have been scrapped, and documented in the proper manner, the tag will be destroyed.

**6.20 Tag AT-RAS (Removed As Serviceable)**

This tag is used to identify parts or appliances. The technician will complete, and attach this tag, to equipment removed during maintenance. It will remain attached to the equipment until reinstallation, and then destroyed.

**6.21 Tag AT-RFS (Repairable-For Storage)**

This tag is used to identify items that are repairable, to be placed in storage. The technician and/or inspector will complete, and attach this tag, to repairable items that are going to be placed into storage awaiting repair. The tag will be removed and destroyed, when unit is repaired, and documented as serviceable.

**6.22 Tag AT-RIT (Reject Item Tag)**

This tag is placed on a rejected item. A technician and/or inspector will attach a properly completed tag to rejected parts. This tag will remain with the part and returned to the customer, or scrapped.

**6.23 Tag AT-SLI (Shelf Life Item)**

This tag will be attached to all shelf life items. This tag will be completed by the Parts Inspector, showing a Control #, and expiration date, and attached to each shelf life item. The tag will remain on each item until used, or disposed of.

**6.24 Label AT-T43 (Tested Sticker)**

This sticker is used for altimeter tests. When an altimeter has been tested per 14 CFR Part 43, Appendix E. The technician will complete, and place the sticker on the altimeter.

## **6.25 FAA Form 337 – Major Alteration or Repair**

This report is required to be filed with the FAA (FSDO) upon any major alteration or repair to an aircraft. See Title 14 CFR §43.9, Part 43 Appendix B, and AC 43.9-1 (or subsequent revision thereof) for instructions and disposition of this form. This report is required by law (49 U.S.C. §44701). The completed form will be stored in Alta Avionics, LLC computer system.

## **6.26 FAA Form 8130-3 Airworthiness Release Certificate**

This form will be attached to repaired and/or tested units that are found to be serviceable. It will be completed and signed by an authorized inspector and remain with the unit. The completed form will be stored in Alta Avionics, LLC computer system.

## **6.27 Format of Logbook Entries**

There are multiple formats for logbook entries used by Alta Avionics, LLC They may be handwritten, or computer generated. They are completed and signed by an authorized inspector at the completion of work. They are given to the aircraft owner and will be stored in Alta Avionics, LLC computer system.

Examples of these forms can be found in the following sections

## **7 Forms**

This section describes and provides samples the forms, log entries, tags, stickers and labels as used at Alta Avionics, LLC.

7.1.1 Instructions for Form Use : AL-ATC-TMSI : ATC Transponder and Mode S Inspection

- 1) Enter the date the work is performed
- 2) Enter the Work Order on which the work is being performed
- 3) Enter the aircraft registration number
- 4) Enter the aircraft Serial Number
- 5) Transponder #1 enter the name of the Manufacturer of the transponder
- 6) Transponder #1 enter the Model of the transponder
- 7) Transponder #1 enter the Part Number of the transponder
- 8) Transponder #1 enter the Serial Number of the transponder
- 9) Transponder #1; place an X in the boxes for each parameter for each corresponding test
- 10) Transponder #1; visually inspect the antenna in accordance with manufacturer's recommendations, place an X in the box to denote satisfactory results
- 11) Transponder #1; place an X in the System Pass box if all tests were satisfactory
- 12) Transponder #2 enter the name of the Manufacturer of the transponder
- 13) Transponder #2 enter the Model of the transponder
- 14) Transponder #2 enter the Part Number of the transponder
- 15) Transponder #2 enter the Serial Number of the transponder
- 16) Transponder #2; place an X in the boxes for each parameter for each corresponding test
- 17) Transponder #2; visually inspect the antenna in accordance with manufacturer's recommendations, place an X in the box to denote satisfactory results
- 18) Enter the name of the person performing the inspections and tests
- 19) Enter the test and inspection equipment Identification Number

**NOTE:** Not all fields always require text entry. Contact your supervisor if there are questions. In cases where data is not required, DO NOT leave blank; enter N/A.

- 7) Enter the name of the Manufacturer of the Encoder or Air Data Computer
- 8) Enter the Encoder or Air Data Computer Part Number
- 9) Enter the Model of the Encoder or Air Data Computer
- 10) Enter the Serial Number of the Encoder or Air Data Computer
- 11) Enter the Scale Error next to each parameter
- 12) Enter the Barometric Scale Error next to each parameter
- 13) Enter the value of Hysteresis for each parameter
- 14) Enter the value of the Case Leak as tested
- 15) Enter the values for the three (3) parameters of the After Effect following the test
- 16) Enter the aircraft registration number
- 17) Enter the date on which the Altimeter Test was completed
- 18) Enter the Identification number of the test equipment used
- 19) Enter the name of the person who performed the Altimeter Test
- 20) Place employee initials in the boxes for each Inspection approved

**NOTE:** Not all fields always require text entry. Contact your supervisor if there are questions.  
In cases where data is not required, DO NOT leave blank; enter N/A.

### 7.3 A-CC : Certificate of Calibration

**Alta Avionics, Inc.  
Certificate of Calibration**

Manufacturer: \_\_\_\_\_  
Model: \_\_\_\_\_  
Description: \_\_\_\_\_  
Serial Number: \_\_\_\_\_  
Customer: \_\_\_\_\_  
Work Order: \_\_\_\_\_

Calibration Procedure: \_\_\_\_\_  
Environmental Conditions: \_\_\_\_\_

Remarks: \_\_\_\_\_

This Unit was Received ☐ In Specification ☐ Out of Specification

This certificate attests that this instrument has been calibrated under the stated conditions with standards that are traceable to the National Institute of Standards and Technology (NIST) or derived from accepted values of natural physical constants or derived by ratio type of self-calibration. Evidence of traceability is available and on file at our Facility.

Standards Utilized for this Calibration

Equip. ID	Manufacturer	Model	Serial Number	Due Date

Calibration Date: \_\_\_\_\_

Calibration Due: \_\_\_\_\_

\_\_\_\_\_  
Calibrated By

CRS# JN1R0210  
1887 SOUTH 1800 WEST  
Woods Cross, UT 84087

7.3.1 Instructions for Form Use: Certificate of Calibration

1. Enter the name of the manufacturer for the unit being calibrated
2. Enter the model number of the unit being calibrated
3. Enter a description (nomenclature) of the unit being calibrated
4. Enter the serial number of the unit being calibrated
5. Enter the name of the customer who submitted the unit to be calibrated
6. Enter the work order number on which the work is being performed
7. Enter a description of the calibration procedures applicable to the unit being calibrated
8. Enter a description of the environmental conditions at the time the unit was being calibrated
9. Enter remarks pertaining to the unit being calibrated
10. Annotate in the boxes provided, the status the unit was found to be upon arrival
11. List all equipment and standards used to accomplish the calibration
12. Enter the date the calibration was completed
13. Enter the next calibration due date, based on the interval prescribed for the unit being calibrated
14. Enter the name of the person who performed the calibration

**NOTE:** Not all fields always require text entry. Contact your supervisor if there are questions. In cases where data is not required, DO NOT leave blank; enter N/A.

## 7.4 A-CLSE : Capabilities List Self-Evaluation

### Alta Avionics, LLC Capabilities List Self-Evaluation Form

Description of  
desired capability:

**Facility:**

1. Repair station: CRS# JN1R0210, 1887 SOUTH 1800 WEST, Woods Cross, UT 84087
2. Are there adequate housing and facilities for desired capability?

☐ YES      ☐ NO

Describe housing facility  
for desired capability:

**Requirements:**

1. Does the desired facility possess the proper tools needed for this capability?

☐ YES      ☐ NO

Description of Tools  
needed:

2. Does the desired facility possess the proper equipment and materials needed for the capability?

☐ YES      ☐ NO

Description of Tools  
needed:

\*in the case of using equivalents, please specify.

3. Does the repair station have the proper technical data and processes?

☐ YES      ☐ NO

Description of technical  
data and source for data:

4. Does the repair station have properly trained personnel?

☐ YES      ☐ NO

Repair Station Acceptance: \_\_\_\_\_, Date: \_\_\_\_\_

7.4.1 Instructions for Form Use : A-CLSE : Capabilities List Self-Evaluation

1. Enter a description of the capability sought Facility;
  - a. The repair station with managerial control of its satellite repair stations must hold the capability prior to that capability being held by a satellite repair station
  - b. Select Yes or No, regarding housing and facilities
  - c. Describe the housing and facilities which are required to support the added capability
2. Requirements;
  - a. Select Yes or No, regarding the possession of proper tooling
    - i. Describe the type of tooling required
  - b. Select Yes or No, regarding the possession of proper equipment and materials
    - i. Describe the type of equipment and materials required
  - c. Select Yes or No, regarding the possession of the proper technical data required
    - i. Describe the type of technical data required
  - d. Select Yes or No, regarding the repair station employee for proper training
    - i. Describe the type of training required
3. Acceptance;
  - a. Provide the completed form to the Quality Assurance Manager
    - i. The Quality Assurance Manager will sign and date the form, and present to the President for final acceptance

**NOTE:** Not all fields always require text entry. Contact your supervisor if there are questions. In cases where data is not required, DO NOT leave blank; enter N/A.

---

## 7.5 A-ETR : Employee Training Record

CRS# JN1R0210  
1887 SOUTH 1800 WEST  
Woods Cross, UT 84087

### Employee Training Record

Employee Name	
Certificate Number (Repairman)	
Type of Training	
Method of Training (Classroom, Factory, OJT, ETC.)	
Length of Training (Hours)	
Location of Training	
Name of Instructor	
Date of Training	
Qualified	
Employee Signature	
Supervisor's Signature	
Training Records	Date: _____ BY: _____

7.5.1 Instructions for Form Use : A-ETR : Employee Training Record

1. Enter the full name of the Employee
2. Enter the Certificate number (A, P, A/P, Repairman, etc.)
3. Enter the type of training (e.g. OJT, Classroom, Distant, etc.)
4. Enter the duration/length of training, in hours
5. Enter the location of training (organization, facility, factory, etc.)
6. Enter the name of the qualified instructor
7. Enter the date the training occurred (the day it was completed)
8. Enter Yes, or No, denoting whether the training was successful to establish proficiency in the skill being trained
9. Apply Employee signature to the completed form
10. Apply Supervisor's signature to the completed form
11. Enter the date on which the employee Training Records were updated
12. Enter the name of the person updating the employee Training Records

NOTE: Not all fields always require text entry. Contact your supervisor if there are questions. In cases where data is not required, DO NOT leave blank; enter N/A.

## 7.6 A-MCR : Manual Change Request

### MANUAL CHANGE REQUEST

1. Enter name of manual, page, and current revision date to be revised.

---

---

---

2. Enter (or attach) the new text that is proposed as a change.

---

---

---

3. Write a brief explanation of the reason for the change.

---

---

---

4. Signature: \_\_\_\_\_ Date: \_\_\_\_\_

5. Action taken regarding proposed change:

☐ ACCEPTED                      ☐ REJECTED                      ☐ MODIFIED

6. Explanation of action:

---

---

---

7. Approval:

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

QA MANAGER

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

CHIEF INSPECTOR

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

GENERAL MANAGER

7.6.1 Instructions for Form Use : A-MCR : Manual Change Request

1. Self-explanatory
2. Self-explanatory
3. Self-explanatory
4. The employee requesting the manual change must sign
5. The employee requesting the manual change must date
6. The QA manager, Chief Inspector, or General manager will select one of the three status boxes
7. The QA manager, Chief Inspector, or General manager will outline what actions are to be taken (e.g. revise the manual, reject the request, etc.)
8. The QA manager, Chief Inspector, or General manager will sign and date the completed form

**NOTE:** Not all fields always require text entry. Contact your supervisor if there are questions. In cases where data is not required, DO NOT leave blank; enter N/A.

## 7.7 A-RTL : Required Training Log

### Alta Avionics, LLC Required Training Log

Employee Name				
Hire Date				
Position				
Initial Supervisor				
Training Type	Frequency	Date	Instructor	Notes
Drug and Alcohol Training and Testing	Initial			
Repair Station Manuals	Ongoing Test Once			
Repair Station Work Orders	As Required			
General Forms and Procedures	As Required			
Incoming Material Inspection	As Required			
Equipment and Parts Handling	As Required

FORM AL-ATI(05-21)

**7.14.1 Instructions for Form Use : AL-ATI : Altimeter Tests and Inspections**

1. Enter an X in the box, if appropriate, denoting compliance with Appendix E & F of 14 CFR 43, as required by 14 CFR 91 §91.411
2. Enter an X in the box, if appropriate, denoting compliance with Appendix F of 14 CFR 43, as required by 14 CFR 91 §91.413
3. Static System Leak Check;
  - a. Enter the altitude, in feet, a given system is tested to
4. Location Performed; enter the airport identifier where the work was performed as the location
5. Equipment Identification;
  - a. For all installed equipment comprising the pitot/static/transponder system;
  - b. Enter the Manufacturer's name
  - c. Enter the Manufacturer's Model Number
  - d. Enter the Manufacturer's Part Number
  - e. Enter the Manufacturer's Serial Number
  - f. Enter the value (in feet above sea level) the individual equipment was tested
6. Enter the Work Order number under which the tests and inspections are being performed
7. Enter the aircraft Manufacturer's Model Number
8. Enter the aircraft Manufacturer's Serial Number
9. Enter the aircraft registration number
10. Enter the aircraft Hobbs (hour) Meter time
11. Enter the aircraft tachometer (hours) time
12. Enter comments regarding the performance or functionality, as needed
13. Apply the signature of the person authorized to perform the tests and inspections, and return for service
14. Enter the date on which the tests and inspections were completed

**NOTE:** Not all fields always require text entry. Contact your supervisor if there are questions. In cases where data is not required, DO NOT leave blank; enter N/A.

FAA Form 337 (10/06)

ALTA AVIONICS, LLC

Forms Manual (FM)

---

NOTICE

*Weight and balance or operating limitation changes shall be entered in the appropriate aircraft record. An alteration must be compatible with all previous alterations to assure continued conformity with the applicable airworthiness requirements.*

**8. Description of Work Accomplished**

*(If more space is required, attach additional sheets. Identify with aircraft nationality and registration mark and date work completed.)*

_____	_____
Nationality and Registration Mark	Date

Additional Sheets Are Attached

7.25.1 Instructions for Form Use: FAA Form 337 (Major Repair and Alteration)

Authorized Alta Avionics, LLC personnel filling out FAA Form 337 **must** read and understand FAA Advisory Circular (AC) 43.9 (as revised), (Instructions for Completion of FAA Form 337).

Authorized Alta Avionics, LLC personnel filling out FAA Form 337 **must** also read and understand CFR 14 Part 43, Appendix B (Recording of Major Repairs and Major Alterations).

- 1) As requested by the owner/operator and allowed by 14 CFR Part 43 Appendix B para (b), Major Repairs can be recorded in the work order and a maintenance log entry instead of FAA Form 337.
- 2) When required, records of major repairs and alterations will be made on FAA Form 337. Completion of FAA Form 337 will be accomplished using FAA Advisory Circular (AC) 43.9 (as revised), (Instructions for Completion of FAA Form 337) and CFR 14 Part 43, Appendix B (Recording of Major Repairs and Major Alterations).

**NOTE:** After completion, the original FAA Form 337 shall be supplied to the customer. A copy will be made part of the work order package for the repair station records, and (within 48 hours) a copy will be forwarded to:

FAA Aircraft Registration Branch  
P.O. Box 25504  
Oklahoma City, OK 73125-0504

<b>User/Installer Responsibilities</b>						
<p>It is important to understand that the existence of this document alone does not automatically constitute authority to install the aircraft engine/propeller/article.</p> <p>Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts aircraft engine(s)/propeller(s)/article(s) from the airworthiness authority of the country specified in Block 1.</p> <p>Statements in Blocks 13a and 14a do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.</p>						

**7.26.1 Instructions for Form Use: FAA 8130-3 (Authorized Release Certificate)**

Authorized Alta Avionics, LLC personnel filling out Form FAA 8130-3 **must** read and understand FAA order 8130.21 as revised, (Procedures for Completion of the Authorized Release Certificate, FAA Form 8130-3, Airworthiness Approval Tag). Authorized Alta Avionics, LLC personnel filling out form FAA 8130-3 should also read and understand FAA Order 8130.21H (Authorized Release Certificate, FAA Form 8130-3, Airworthiness Approval Tag Frequently Asked Questions (FAQ))

The following instructions explain in summary the appropriate procedures in filling out this form. These procedures are derived from FAA Order 8130-21 (as revised). In all cases where there is a conflict with these instructions and with FAA Order 8130-21 (as revised), FAA Order 8130-21 will take precedence and the conflict reported to a supervisor at Alta Avionics, LLC.

**1) Approving National Aviation Authority/Country:**

FAA/United States (Preprinted)

**2) Authorized Release Certificate, FAA form 8130-3, Airworthiness Approval Tag.(Preprinted)****3) Form Tracking Number:**

The number will be unique to each serialized component and be comprised of the Work Order number (Form A-WO), a dash (-) followed by the squawk or step number from that Work Order. One squawk in the work order per serialized component unless the P/N in Blk. 8 comprises many serialized parts to make a kit or set. In these cases, create an attachment to the 8130-3 listing all serialized components of the same P/N.

**4) Organization Name and Address:**

Alta Avionics, LLC. 1887 S. 1800 W. Woods Cross, Utah 84087, FAA Repair Station #: JN1R0210.

**5) Work Order/Contract/Invoice Number:**

Alta Avionics, LLC Work Order number from Form A-WO, corresponding to the work scope.

**6) Item:** Alta Avionics, LLC is only authorized to use this form for approval for return to service and only allowed to issue 1(one) x 8130-3 for "1" P/N at a time.**7) Description:**

Enter the name or description of the product, part or appliance as referenced in a part catalog or overhaul manual.

**8) Part Number:**

Enter part number of the product or article. There should be ONE(1) part number per one(1) Form 8130-3. If the article being worked is a subassembly that does not have a part number of its own, enter the next higher assembly number followed by the word "subassembly". If appropriate, add further descriptive information in Block. 12 (Remarks).

**9) Quantity:**

Enter "1" unless there are multiple un-serialized components of the same P/N in Block. 8. Or multiple S/N's of the same P/N that make up a kit/set.

**10) Serial Number:**

If the product or article is required by part 45 to be identified with a serial number, enter it here. Additionally, any other serial number not required by regulation also may be entered. If no serial number is entered in this block, enter "N/A." Multiple serial numbers can be entered here associated with one part number.

**11) Status/Work:**

The following describes what to enter in a specific situation. Only one term may be entered in Block 11, which should reflect the majority of the work performed by Alta Avionics, LLC.

**a) "Overhauled":**

A process that ensures the article is in complete conformity with the applicable service tolerances specified in the type certificate, manufacturer's instructions for continued airworthiness or in the data approved or accepted by the authority. The product or article will be at least disassembled, cleaned, inspected, repaired as necessary, reassembled, and tested in accordance with the approved or accepted data.

**b) "Repaired":**

Repair of defect(s) using an applicable standard.

**c) "Inspected" and/or "Tested":**

Examination or measurement in accordance with an applicable standard (for example, visual inspection, functional testing, or bench testing).

**d) "Modified":**

Alteration of a product or article to conform to an applicable standard.

**NOTE:** The applicable standard used in any of the above must be described in Block 12 (Remarks).

**12) Remarks:**

Describe the work identified in Block 11 and associated results necessary for the user or installer to determine the airworthiness of the product or article in relation to the work being certified. Example: "Overhauled in accordance with 'Mooney M20 Series Service & Maintenance Manual', Section: H.1, Manual: MAN104, Revision: July 1980", and AD reference where applicable. If necessary, a separate sheet may be used and referenced from the main FAA Form 8130-3. Each statement must clearly identify which product or article in Block 6 it relates to.

**NOTE:** The applicable standard must be described in this block.

**13) 'a' through 'e':**

Blocks 13a through 13e: Shade, darken, or otherwise mark to preclude inadvertent or unauthorized use, (For original manufacturer of new components only).

**14) Approval for Return to Service.**

a) Both boxes are to be checked for a valid dual release.

**b) Authorized Signature:**

This space will be completed with the signature of the Alta Avionics, LLC authorized

person. Only persons specifically authorized and listed on the Alta Avionics roster are permitted to sign this block. The approval signature must be applied at the time and place of issuance.

c) **Approval/Certificate No.:**

Enter the Alta Avionics, LLC Certified Repair Station number: JN1R0210.

d) **Name (Typed or Printed):**

Type or print name of the authorized representative whose signature appears in Block 14b.

e) **Date (dd/mm/yyyy):**

The date to be entered in Block 14e for approval for return to service will be the date on which the original work was completed. The date must be in the following format: two-digit day, first three letters of the month, and four-digit year, for example, 10/JUN/2021.
